

HERITANCE Ahungalla first Sri Lankan hotel to be ISO 50001:2011 Certified

Heritage Ahungalla, Sri Lanka's leading five-star resort, owned and managed by Aitken Spence Hotels was certified for Energy Management System ISO 50001:2011. Heritage Ahungalla is the first hotel to receive ISO 50001:2011 certification in Sri Lanka. The certificate was presented to Aitken Spence Hotels Managing Director Malin Hapugoda by Quality International Certification Services (QICS) Chairman Dr. Srilal de Silva at the hotel on 9 December.

ISB was conducted the independent detail Energy Audit (EA) at the premises under the request of QICS. This was the first attempt of ISB getting involving with independent energy audit related to international energy standards. ISB has trained experts on both BS EN 16001 standard and ISO 50001:2011 international energy systems through Confederation of Indian Industries (CII), India with the help of the SWITCH-Asia

ISB Team During the Energy Audit

programme. ISB is willing to play a key role in leaping Sri Lankan industries to

complying with International Certification Systems during the upcoming year.

The Energy Management System will enable the hotel to meet the current and future mandatory energy efficiency targets and requirements of green house gas (GHG) emission reduction legislations.

ISB congratulate the team of Heritage Ahungalla lead by Vice President Engineering Rohitha Rajaratne, General Manager Refhan Razeen, and Chief Engineer Jayantha Madanayake for their achievement.

The hotel has already reduced the cost of energy significantly through their improved best practices and was awarded with the Bronze Flame in the Large Hotel Sector at the National Energy Efficiency Awards 2011.

ISB-CCC LAUNCHES FIRST SWITCH ASIA-GBC IN WAYAMBA

SWITCH Asia F&B Programme launched its first Green Business Club (GBC) in Kurunegala recently. The programme organised by SWITCH Asia F&B Programme in collaboration with Industrial Services Bureau (ISB), Kurunegala aims at networking businesses at all levels through formation of Green Business Clubs.

needed. In order to achieve this, increased awareness and involvement by key leaders is essential."

With this initiative SWITCH – Asia F&B Programme is creating a stage for business leaders with exposure to ensure that green thinking is an integral part of their personal and professional lives. Establishment of Green Business Clubs is aimed at inspiring and involving business leaders in ecosystem and biodiversity conservation.

The main goals of this Green Business Club would be to create awareness of the importance of Nature Conservation among emerging leaders and to give them a sense that they can make a difference through their positions of influence, to create fellowship of these individuals, to create opportunities for concrete participation in conservation projects in Sri Lanka, to broaden their experience and to contribute their expertise in conservation and ecosystem management.

Addressing the gathering, the President of the Wayamba GBC Mr. S.M.A.G. Perera, Managing Director, Polypacking Industries Pvt. Ltd., stated "the Green Business Clubs can be a useful exchange platform for disseminating successful business case on sustainable production

amongst the Food & Beverage business community and further crosscutting towards other sectors. Therefore the programme aims to make this initiative a reality and use it as a platform for active dialogue on environmental issues in the country so that all stakeholders could work towards creating better enabling environment for Sustainable Consumption and Production (SCP)."

SWITCH Asia F&B Programme is implemented by the Ceylon Chamber of Commerce and is sponsored by the European Union.

Chief Secretary Mr. Vijitha Bandara Ekanayake addressing the gathering

Speaking at the launch ceremony, Mr. Vijitha Bandara Ekanayake, Chief Secretary of the Wayamba province observed that environmental conservation and ecosystem management issues are complex and far from individual daily life experiences. He said, "in order to curb the tide of extinction and habitat destruction, a concerted plan for ecosystem management and nature conservation is

Elected President of the Wayamba GBC – Mr. S.M.A.G. Perera addressing the members

EU Comments SWITCH-Asia for its SUCCESS

The SWITCH Asia programme for Small and Medium Enterprises (SMEs) in Food and Beverages sector was commended by an expert panel at its bi-annual evaluation held recently. The expert evaluation panel comprised of Ms. Harshini Halangode, Project Manager, European Union, Mr. Gamini Senanayake, Chairman, Gamini Senanayake Associates Pvt. Ltd. and Mr. Sena Peiris, Director, National Cleaner Production Centre and members from the other partner organisations.

ISB Assining SMEs on SITE

Commenting on the programme and its achievements Ms. Halangode said, "during the past three years we have noticed a tremendous improvement in resource conservation by the SMEs within the programme. The progress achieved by these SMEs will indeed encourage similar organizations to follow in their footsteps and we look forward to see how other SMEs adopt similar practices."

The SMEs that are part of the programme have received the ISO22000:2005 certification. They follow Sustainable Consumption and Production practices (SCPs) and have achieved considerable progress in resource conservation.

Industrial Services Bureau (ISB) focusing on the Energy Stream of the programme was able to help SMEs to get aware on the low cost energy conservation mechanisms to adopt in their premises. Addition to offsite energy

Off Site training Session on Energy Management (Kurunegala)

SMEs obtaining training on SCP (Target -500)	430
SMEs obtaining training on International food safety standards (Target -143)	143
SMEs adopting best practices of SCP (Target -75)	24
SMEs comply with food safety / certification (Target -22)	15

PPB JOINS ISB WITH ENERGYPACK BOILER SOLUTION

PPB, the pioneer Sri Lankan manufacturer of Commercial & Film Face Plywood have opened LCs to install an ENERGYPACK biomass Thermic Fluid heater to full fill the thermal energy need of their manufacturing facility. PPB is subsidiary of the Puwakaramba group of Companies (PGC) and established as a BOI approved project to manufacture Commercial & Film Face Plywood.

ISB recently joined hand in hand with ENERGYPACK BOILERS Pvt Ltd promote Safe, Economical and Durable Boiler Solutions for Sri Lankan Industries. The 30 year old professionalism of ENERGYPACK in the boiler field has lead ISB to recommend them as the perfect solution to conquer the country's lagging in the boiler technology.

ENERGYPACK boilers are three pass wet back, horizontal, smoke tube type fusion welded and made to IBR/DIN/BS/ASME code. Components are engineered for maximum safety, highest efficiency, dependability and quiet operation. ENERGYPACK offers boiler for all the types of fuels like Diesel, Kerosene, Furnace oil and Bio-mass such as Fire wood, Saw dust and etc.

Except for being Safe, Economical & Durable, ENERGYPACK Boilers has following key features which fasten to industrialists' needs.

- Solid Construction
- Easy Erection & Maintenance
- High Performance
- Customized Installation

Vast Product Range of ISB-EnergyPACK Boilers

- Self Supported Chimneys
- Hot water Boilers
- Steam Boilers
- Thermic Fluid Heaters
- Waste heat Boilers (WHB)
- Heat Exchangers (TEMA)
- Dewaxing Boiler Auto Clave for Investment casting
- Electrode Boilers
- SIB Boilers
- Incinerators
- Radiators
- Pressure Vessels (ASME)
